Federally Compliant Data Centers – Built from the Ground Up to the Highest Federal Security Standards

QTS has been delivering highly compliant and secure data hosting solutions to the public sector for over 15 years. Our U.S. owned and operated, purpose-built data centers offer cost savings and speed-to-market via secure colocation space, abundant connectivity, innovative contract portability, and a new software-defined service delivery platform.

STREAMLINED IC/DOD ACCREDITATION

Our accreditation experts work with your team to streamline the IL-5,6, and ICD-705 approval processes.

SPEED TO MISSION

Our purpose-built facilities offer best in class deployment speeds without having to retrofit.

BEST IN CLASS COST EFFICIENCIES

Advanced cooling technologies and state of the art facility designs save over 400% in monthly cooling costs.

SURVIVABILITY THROUGH GEOGRAPHIC DIVERSITY

Our 26+ facilities operate in all 3 major U.S. electric grids, ensuring mission resiliency.
