

QTS SACRAMENTO

Located less than 90 miles from San Francisco, QTS Sacramento offers 46,000 square feet of raised floor space and 9 megawatts of power capacity in a seismically-neutral location.

Building Specifications

- 92,644 sq. ft. facility
- 46,000 sq. ft. raised floor
- Zone 4 standard steel beam "super support" system; importance factor of 1.5
- Roof space and access available for client antenna installations

Power

- Configuration options: N+1, N+2, 2N
- 6MWs of critical power capacity
- 10 UPS units
- 4 generators
- Dedicated, on-site substation

Cooling

- 75 30-ton CRAH units fed from 6 500-ton centrifugal chillers with water side economization
- Six (6) 500-ton water cooled chiller units provide 3,000 tons of cooling capacity for the facility
- VESDA smoke detection above and below raised floors
- Temperature, humidity and leak sensors throughout the data halls
- Dual action suppression system, fire life safety, electrical and mechanical monitoring
- Fully automated Building Management System providing remote indications and operations capabilities
- 24 ft. ceiling height designed as cooling reservoir

QUICK FACTS

- Designed to deliver "five nines" performance with highly scalable power and cooling built to N+1 specifications or better
- Security and technical staff on-site 24 hours a day, every day
- 0.5 miles from I-80, 2 miles from I-5 highway

On-net Carriers

- AT&T
- Comcast
- Verizon
- CenturyLink
- Consolidated Communications
- Verizon Business
- Cogent Communications
- Sacramento-IX
- XO Communications
- Zayo

Connectivity Solutions

- QTS internetConnect
- QTS crossConnect – *online ordering available*

Security

- External and internal PTZ motion sensor cameras
- Video intercom
- Biometric and iris scan required to enter data hall through the security vestibule
- Security guards on-site 24x7x365

Compliance

- SOC 1
- SOC 2
- SOC 2 – HIPAA
- PCI
- ISO 27001
- HITRUST

BENEFITS

- Provides cost-effective, customized solutions for primary, secondary and disaster recovery IT infrastructure
- Carrier-neutral connectivity to multiple network providers
