

QTS Spotlight

# CHICAGO

## Low risk of natural disasters

Compared to hurricane and earthquake-prone coast cities, catastrophic natural disasters are almost unheard of in CHI

## Proximity to airports

5 minutes to Midway, 30 mins. to O'Hare International

## Complete raised floor design flexibility

few columns no CAHU's due to Kyoto solution

## 500+ year floodplain per FEMA

## Energy efficient air-cooled Kyoto solution

Automatically adjusts load variations 0-4MW in 30 minutes

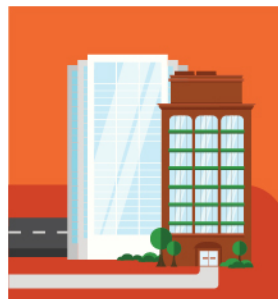

## Low cost of energy compared to East or West Coast

Lower than the national average and competitive with other large markets – EIA 11/15 NJ – 13.01, NY 15.33, California 14.81, Ill 8.83, Nevada 8.98

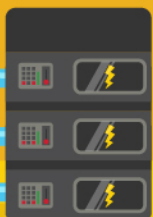

## Proximity to CME and 350 E. Cermak

4 miles to Carrier Hotel (Cermak)

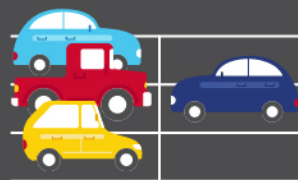

## Fiber-rich central hub for East and West coast

## Complete flexibility in design with the 2MW block solution

## 300 free parking spaces

Walk right in!

## Horizontal design

Lots of space to grow
