

CHICAGO DATA CENTER

ONE OF THE
TOP
GREEN POWER USERS

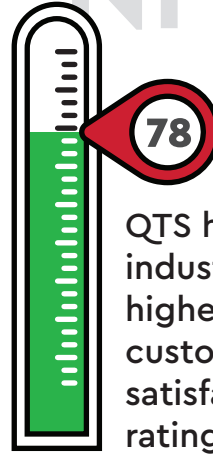

POWERED BY

Innovation has reduced power cost by **~20%**

NPS

QTS has the industry's highest customer satisfaction rating

“ The success of our business is dependent on a high-density, hybrid colocation hosting environment required for graphics processing unit (GPU) intensive applications living in the cloud. Performance, speed, and reliability are critical, but just as important is **QTS' collaborative customer support system** that we rely on every day. Their leading NPS score is warranted by their unrelenting focus on ensuring customer success. They are a strategic member of our IT team and we look forward to a long term partnership.

Blade Shadow

Former Chicago Sun-Times Printing Plant transformed into

of state-of-the-art mega data center

“ QTS' has demonstrated a partnership approach through **team collaboration, responsiveness** and **enterprise support** which Temple requires to continually earn our clients' valued trust.

Dan Moore, Founder, Temple & Associates, Inc.

“ QTS is working closely with us to design a **highly flexible** and **scalable infrastructure** solution on QTS' national platform adaptable to our clients' growing needs.

Dan Moore, Founder, Temple & Associates, Inc.

“ QTS' **ample connectivity** and downtown location is extremely advantageous for us.

Jeff Norris, Founder, TCG Solutions.

“ The QTS presence in Chicago has allowed a cloud company like ours to share facilities with global cloud powerhouses and at the same time work with a company that has **helped transform the area** in which they reside. They provide top-notch managed services focusing on what they do best, so we can save money and put more resources into areas that are more productive for us.

ComputerTalk Global

“ QTS provides us with **highly secure** and **compliant IT infrastructure** services that allows us to focus on our core business while our managed services customers benefit from the highest levels of performance and availability.

Jeff Norris, Founder, TCG Solutions.
